#### WINCHESTER SPAN ISOMETRIC, POST 1893

THIS ISOMETRIC GRAPHICALLY RECONSTRUCTS FIVE PANELS OF THE WINCHESTER SPAN AS IT STOOD FROM CA. 1893-1936. PIECES RECOVERED FROM THE POTOMAC RIVER IN 1986 ARE HIGHLIGHTED.

*Wheeling Suspension Bridge, Wheeling, West Virginia. View through arch of east tower. Photograph by Jack E. Boucher, March 1977 (HAER WVA,35-WHEEL,35-44).*

*Baltimore and Ohio Railroad: Bollmann Bridge, Harper's Ferry, Jefferson County, West Virginia. Winchester span isometric, post 1893. Measured drawing delineated by Joanna Downs, Samuel Gaine, Brian D. Bartholomew, 1987 (HAER WV-36, sheet 5 of 6).*

# *Index to County by City*

---

The arrangement of cities and towns within the preceding checklist is alphabetical **by county** within each state. To determine in which county a city or town is located, consult the following *Index to County by City*. This index lists all cities and towns in the checklist by state and indicates the county in which they are located.

**Independent cities**—those cities that are legally separate from any county—are identified by the word "(City)" following the city name without reference to a county name. In the preceding checklist, they are interfiled in the same alphabet as the counties.

## ORIGINAL LENS (1873)

THE FIRST-ORDER, EIGHT PANEL LENS ORIGINALLY INSTALLED AT THE SOUTHEAST LIGHT WAS MANUFACTURED IN 1873 BY BARBIER & FENESTRE, PARIS, FRANCE, AT A COST OF \$10,000. ITS LENS SECTION WAS SIMILAR TO THAT SHOWN FOR A FIRST-ORDER LENS ON SHEET B, ALTHOUGH THE SOUTHEAST LENS HAD FEWER REFLECTING PRISMS IN ITS UPPER SECTION. THE LENS SURFACE WAS "GENERATED" BY ROTATING A FRESNEL LENS SECTION AROUND THE VERTICAL AXIS OF THE LENS ASSEMBLY; SUCH A LENS FOCUSED LIGHT INTO A HORIZONTAL BAND. BECAUSE THE LENS WAS FIXED, IT DID NOT NEED THE TWO LENSES FACING LAND; A PRISMATIC REFLECTOR REPLACED THESE LENS PANELS.

THE ST. GOBAIN GLASS USED IN THE PRISMS HAD AN INDEX OF REFRACTION OF 1.54, AND WAS COMPOSED OF 72.1% SILICA ( $\text{SiO}_2$ ), 12.2% SODA ( $\text{Na}_2\text{CO}_3$ ), AND 15.7% CHALK ( $\text{CaCO}_3$ ), WITH TRACES OF ALUMINA ( $\text{Al}_2\text{O}_3$ ) AND IRON OXIDES ( $\text{FeO}$  AND  $\text{Fe}_2\text{O}_3$ ). THE GLASS WAS CAST IN IRON MOLDS  $1/8$  LARGER THAN THE FINISHED PRISMS. THE CAST SEGMENTS WERE CEMENTED TO A HORIZONTAL TABLE LATHE AND GROUND TO SIZE BY CAST-IRON SANDERS USING A SERIES OF FINE ABRASIVES. THE FINISHED PIECES OF EACH CENTER (DRUM) LENS PANEL WERE GLUED TO EACH OTHER USING EITHER "FISH GLUE" OR A CEMENT COMPOSED OF 12 PARTS WHITE LEAD ( $\text{PbCO}_3$ ), 1 PART "MINIUM" (I.E. RED LEAD  $\text{Pb}_3\text{O}_4$ ) AND 5 PARTS "BOILED LINTSEED [sic] OIL." LENSES AND PRISMS WERE MOUNTED AND ADJUSTED IN THEIR BRASS FRAMES WITH A PUTTY COMPOSED OF 12 PARTS WHITE LEAD, 3 PARTS "WHITING" (CHALK), 1 PART "MINIUM", AND 4 PARTS BOILED LINTSEED OIL."

THIS LENS WAS REPLACED IN 1929; ITS DISPOSITION WAS NOT DETERMINED BY HAER.

SCHEMATIC PLAN OF LENS

LENS BASED ON "APPAREIL DE 1<sup>ER</sup> ORDRE, A FEU FIXE ECLAIRANT 270.0 POUR BLOCK ISLAND, PARIS, LE 28-9<sup>ORE</sup> (SEPTEMBER) - 1873" BY BARBIER AND FENESTRE, PARIS, FRANCE. (SEE HAER PHOTO RI-27-32)

1. State
2. County
3. City
4. Name of building, structure, or site (record name)
5. Address
6. HABS or HAER Survey Number
  - HABS=Historic American Buildings Survey
  - HAER=Historic American Engineering Record

*Each number is preceded by the Postal Service two-letter abbreviation for the state where the building, structure, or site is located, here RI for Rhode Island. In this imaginary example, both HABS and HAER have recorded this site.*

7. Shelflist number (in *italics*)

Each number is preceded by a 2-4 letter code representing the state where the building structure, or site is located, here RI for Rhode Island.

*Documentation*

8. dr = sheets of measured drawings
9. ph = photographs
10. pg = pages of written data
11. pc = pages of photo captions
12. ct = color transparencies
13. fr = field records

This imaginary example illustrates each category of documentation. In the actual checklist, if there is no documentation for a particular category, that category does not appear.

*Location*

14. L=Library of Congress
15. H=HABS/HAER Office, National Park Service
